

PMI-Agile Certified Practitioner Exam Preparation

WHO THIS COURSE IS FOR?

This course will benefit anyone interested in agile project management methods.

The list of beneficiaries includes:

- Program Managers and Product Owners
- Project Managers and Scrum Masters
- Project Team Members
- Customers, General Management, and Senior Management
- Partners, Vendors, and Contractors

PMI-ACP is the agile certification from the Project Management Institute (PMI) and it “sets the bar” for agile project management professionals. The two hurdles standing in front of you are completing the application to sit for the exam and passing the exam. Luckily this course helps you sail over those hurdles, understand the agile mind-set, and go to the next level with solid, real world practices in class.

THIS COURSE INCLUDES:

This course includes three full-length ACP practice exams and a six-month subscription to our Online Exam Simulator with over 1,000 questions. It also includes the Agile Process Map™ and the Agile PM Processes Grid™ which you won’t find anywhere else! *PLUS...*

Expert Digests of:

- Scrum
- XP
- Lean
- FDD
- Kanban
- Crystal
- TDD
- Agile Modeling

Study Aids such as:

- Terminology Matching
- Crossword Puzzles
- Flash Cards
- Chapter Practice Tests

Attendees will have:

- Experienced local PMP\PMI-ACP instructors
- Opportunity for hands-on exercises and practice exams
- Certification of 21 hours of training with successful course completion

Saturdays, January 30th, February 6th and February 13th
